AMY COHEN OF EPA SAFE DRINKING WATER ACT

Mountaire Farms has contracted the undersigned below and explained the two permanent Systems of a new well or an ion exchange treatmentsystem. We understand with a deeper well it may improve the nitrate problem but lead to other problems that we do not Have now. Neither do we want the ion exchange system because of size and trouble. We have therefore said we are satisfied with the present bottle water system whether we Pay or they (Mountaire) provides.

Thank you,
